RESPONSE TO RESTRICTION REQUIREMENT

Dear Sir:

In the Office Action mailed January 24, 2005 (the "Office Action"), the Examiner set forth a Restriction Requirement that identified what the Examiner has characterized as three distinct inventions. In particular, the Examiner suggested in the Office Action that the present application contains claims directed to the following three inventions:

I. - Claims 1-12, drawn to calibration device with data filter, classified in class 702, subclass 85;

II. - Claims 13-27, drawn to a distributed network with a global network of computer devices, classified in class 702, subclass 122; and

III - Claims 28-35, drawn to methods of identifying errors in calibration data, classified in class 702, subclass 189.

In response to the Restriction Requirement set forth in the Office Action, Applicant hereby elects Invention III (claims 28-35, drawn to methods of identifying errors in calibration data) for examination, without traverse.

An action on the merits of all the claims and a Notice of Allowance thereof are respectfully requested.

DATED this 1ST day of February, 2005.

Respectfully submitted,
